

FOR IMMEDIATE RELEASE

## Introducing iFly EFB 12.2: Elevating Safety and Collaboration with New Features

McKinney, Texas, August 5, 2023. Adventure Pilot, a leading innovator in electronic flight bag solutions, is excited to announce the release of iFly EFB 12.2, an update that brings new cutting-edge features to the aviation community, including the highly anticipated integration with Avidyne's advanced flight displays.

In this latest update, iFly EFB has seamlessly integrated with Avidyne's advanced Integrated Flight Display (IFD) systems, fostering enhanced collaboration and efficiency for flight planning. Now, pilots can easily share flight plans to and from Avidyne systems directly from their iFly EFB app, streamlining the flight preparation process and ensuring data consistency between avionics systems. In addition, WAAS GPS, ADS-B, and AHRS data will stream from the Avidyne system, automatically and seamlessly enhancing the situational awareness and capabilities of the iFly EFB app.

"iFly EFB 12.2 represents a significant milestone for iFly as we continue to prioritize safety and innovation in the aviation industry," said Juanita Boyd, VP of Operations for Adventure Pilot. "This partnership between iFly and Avidyne is a testament to our commitment to delivering exceptional user experiences and a step forward in fostering greater harmony between avionics systems."

"The ability to integrate with another fantastic EFB solution like iFly EFB enhances the freedom of choice that our Avidyne Pilots are used to," said Mike Salmon, Technical Marketing Manager at Avidyne. "We are very happy to work closely with the Adventure Pilot team to provide an exceptional flying experience for a broader range of customers."

### About Adventure Pilot:

Adventure Pilot is a leading provider of electronic flight bag solutions, offering pilots innovative tools to enhance situational awareness, streamline flight planning, and ensure a safe and efficient flight experience. Adventure Pilot's commitment to excellence and dedication to customer satisfaction have made it a trusted name among aviators worldwide.

### About Avidyne Corporation:

Avidyne's continuing leadership in innovation and product design makes flying safer, more accessible and more enjoyable for pilots and their passengers. The company offers a full line of avionics systems for corporate, military, and owner-flown piston- and turbine-powered fixed-wing and rotor-wing aircraft. Headquartered in Melbourne, FL, the company has additional facilities in Westerville, OH, and Concord, MA.

iFly EFB 12.2 is now available for download on the App Store and the Google Play Store. For more information, please visit [www.iFlyEFB.com](http://www.iFlyEFB.com).
